## Science vs. God

God is sitting in Heaven when a scientist comes to him and says to Him, "Lord, we just don't think we need you anymore. Science has finally figured out a way to create life out of nothing. In other words, we can now do what you did in the 'beginning'". "Oh, is that so? Tell me..." replies God. "Well," says the scientist, "we can take dirt and form it into the likeness of You and breathe life into it, thus creating man." "Well, that's interesting. Show Me." So the scientist bends down to the earth and starts to mold the soil. "Oh no, no, no..." interrupts God, "... "Get your own dirt."
